**Exhibit B**

**Recommend approval of the R-1 zoning. Although the LESA score of 181 indicates the property shall be considered for non-agricultural development, this is a small parcel at 16 acres and the prime cropland is on approximately 7 acres that also includes a timber barrier on the west side of the proposed division. this recommendation to approve the petition is with the condition that road improvements occur and this particular LESA score is higher given the current road conditions, but the score would lower once the road is in place. This mitigating factor deems the property suitable for non-agricultural development. Also, the petitioner states that, excluding the area where the single family residence will be constructed, they plan to maintain the cropland resulting in approximately two (2) acres being removed from crop production. Recommend approval of the requested variance with the condition that a written agreement to extend Briar Ridge Lane is agreed upon between the road commissioner, the petitioner, and any other necessary party.**
